

CudaMail is a domain level Spam and Virus Email filtering service for organizations ranging in size from small businesses to corporate enterprises. CudaMail filters Spam and Viruses before they reach your network.

## BENEFITS:

- Filtering SPAM before it reaches your network allows more bandwidth for your users allowing them to be more productive while lowering your Internet connection costs.
- Filtering SPAM and Virus' before it reaches your network decreases load on your E-Mail Server, allowing for faster response and reducing the need to upgrade hardware performance.
- Using CudaMail filtering services reduces the chance of a Virus entering your network and perhaps compromising an un-patched or outdated E-Mail server.
- You have one less appliance or software package to update. Our servers are updated "hourly" with Energized Updates from Barracuda Central.
- CudaMail is cost effective, and provides one less service you have to deal with in your office. There is no software to install on your servers or workstations.

**PRICING:** CudaMail services are based on per user or per E-Mail account on your server.

CudaMail Spam and Virus Filtering Service		
Users	Monthly price / user	Annual price / user
1 – 100 Users	\$1.99*	\$23.88*
101 – 250 Users	1.49	17.88

Did you know: 93% have had a virus, worm or other Trojan Horse successfully infiltrate their network through Email.

OSTERMAN RESEARCH, INC.

Geographically distributed Cloud-Based filtering system provides redundant protection for your mail.

Filtering SPAM and Virus' before they reach your network greatly increases your network security and productivity.

A team of security engineers at Barracuda Central continuously monitors the Internet for trends in Spam and Virus attacks.

As they detect trends, Energize Updates are created and distributed to the CudaMail service and all 100,000+ Barracuda Spam Firewalls.

Each Barracuda unit at CudaMail is automatically updated with new Spam rules, Spam algorithms, and Virus definitions each hour.
