

Everyone Knows Spam Kills Productivity.

50,000 organizations worldwide fight back with Barracuda.

What is CudaMail?

CudaMail is a domain-level Spam and Virus-filtering service for organizations ranging in size from small businesses to corporate enterprises. Running on redundant Barracuda Spam Firewall 600's, the CudaMail servers are located in a carrier-class collocation facility.

Why You Need CudaMail

- CudaMail leverages the enterprise-class technology of the Barracuda Networks Spam Firewall, helping keep your company more productive and Spam-free.
- Spam and Virus definitions are automatically updated so your protection is always maximized.
- You spend less time dealing with Spam and Virus-related issues so you can spend more time running your business.
