*recurring & paid to you on a quarterly basis

Why CudaMail™

CudaMail™ is different than most E-Mail Filtering Services. We use Barracuda™ Spam Firewall technology with an installed base of over 70,000 servers. All of these servers report back to Barracuda Central (BarracudaCentral.org) and help to create the "Barracuda Reputation Block List". These lists are maintained by Barracuda Central and updated "hourly" in our servers to ensure that SPAM gets quickly blocked and cleaned E-Mail makes it through to your customers E-Mail server.

We are sure that the benefits listed above will benefit your customers and will make you look like a hero. Please Contact us at CudaMail for more information.

Did you know: 93% have had a virus, worm or other Trojan Horse successfully infiltrate their network through Email.

OSTERMAN RESEARCH, INC.

Filtering SPAM and Virus' before they reach your network greatly increases your network security and productivity.

A team of security engineers at Barracuda Central continuously monitors the Internet for trends in Spam and Virus attacks.

As they detect trends, Energize Updates are created and distributed to the CudaMail service and all Barracuda Spam Firewalls.

Each Barracuda unit at CudaMail is automatically updated with new Spam rules, Spam algorithms, and Virus definitions each hour.
