

CudaMail is a domain level Spam and Virus Email filtering service for organizations ranging in size from small businesses to corporate enterprises. CudaMail filters Spam and Viruses before they reach your network.

BENEFITS:

- Filtering SPAM before it reaches your network allows more bandwidth for your users allowing them to be more productive while lowering your Internet connection costs.
- Filtering SPAM and Virus' before it reaches your network decreases load on your E-Mail Server, allowing for faster response and reducing the need to upgrade hardware performance.
- Using CudaMail filtering services reduces the chance of a Virus entering your network and perhaps compromising an un-patched or outdated E-Mail server.
- One of the simplest, most cost-effective ways to bring your practice into compliance with HIPAA's various provisions regarding ePHI email is to implement an email security and encryption solution.
- CudaMail is cost effective, and provides one less service you have to deal with in your office. There is no software to install on your servers or workstations.

PRICING: CudaMail services are based on per user or per E-Mail account on your server.
